

Crown Paints Ltd is obligated as a producer with a main activity of selling in Northern Ireland under The Producer Responsibility Obligations (Packaging Waste) Regulations 2007.

To fulfil our obligation of providing our customers with information to help them recycle their waste packaging material, we are registered with Comply Direct and their Recycling Room. Here you will find advice and information on packaging waste management, recycling symbols and the waste hierarchy principles of reduce, reuse and recycle.

**<http://www.complydirect.com/the-recycling-room/>**

The principles of good waste management are based on the Waste Hierarchy:

- Avoid - Does the material need to be used?
- Reduce - Lower the amount of material used
- Reuse - Use the material repeatedly
- Recycle - Process the material so it can be used again
- Recover - Generate energy from the waste material
- Pre-treat - Make the material inert before disposal (Landfill)
- Disposal - Landfill or incineration (without generation of energy)

To find out about local recycling facilities, please use the above link.

For general enquires please contact Ian Coote. Waste Manager, Crown Paints.
